... together
we are more ...

Successful industries need strong specialist organisations

In Europe the FSK is one of the most important specialist associations of its branch and supports the interests of the foamed plastics and plastics processing industry.

Integrated into a network

of industries, associations, organisations and research institutes

Active for over

50 years

- Founding site in **Frankfurt**
- Head office in **Stuttgart**
- Office in **Brüssel**

Members

from more than 10 countries

We represent the industry along the entire value chain

Raw material companies, machine manufacturers, system houses/formulators, processing companies from the material sectors polyurethane, polypropylene, polyethylene, rubber foams, melamine resin foam, PVC foam and OEMs, such as Volkswagen and BMW AG

The FSK represents an industry **total volume** all around polyurethane and foamed plastics of about

9 B Euro
